PROFESSIONAL SUMMARY

Data and AI leader with **18+ years** of enterprise experience helping global organisations turn fragmented data estates into governed, AI-ready lakehouse platforms — at petabyte scale, across clouds, and at speed. Currently leading one of the most complex Azure-to-GCP Databricks migrations in the region for a global retail enterprise. Previously at Databricks for nearly 4 years, partnering with Fortune 500 clients to architect and operationalize high-impact data and AI platforms. Deep expertise across the full Databricks stack — Unity Catalog, LakeFlow, GenAI, Delta Live Tables — and multi-cloud delivery leadership on Azure, AWS, and GCP.

PROFESSIONAL EXPERIENCE

Associate Director — Databricks Technologies & Delivery

Wavicle Data Solutions

Feb 2026 – Present

Bengaluru, India

- Lead the **Databricks CoE (Center of Excellence)** — defining lakehouse architecture standards, governance frameworks, and delivery best practices across enterprise engagements
- Architecting a **petabyte-scale Azure-to-GCP Databricks lakehouse migration** for a global retail group — 70+ TB moved through a phased, fully automated, zero-downtime migration program
- Designed a **six-step automated migration framework**: asset classification → configuration mapping → JSON transform → dependency-ordered deployment → REST-API deployment → validation
- Built custom **Asset Migrator & Asset Validator** frameworks for governed, error-free cross-cloud migration of clusters, jobs, pipelines, secrets, libraries, and policies
- Implemented **Unity Catalog governance** on target platform — preserving access controls, data lineage, and audit logs throughout the migration lifecycle
- Lead a distributed offshore/onsite engineering team, owning solution architecture, technical mentoring, and senior stakeholder management

Senior Solution Engineer

Databricks India Pvt. Ltd.

May 2022 – Feb 2026

Bengaluru, India

- Established **Databricks Asset Bundle (DAB)** deployment best practices, reducing development cycles and infrastructure costs for enterprise customers
- Developed implementation guidelines for **GenAI initiatives using RAG architecture** (Genie AI/BI, AgentBrick), enabling product teams to adopt GenAI at enterprise scale
- Architected production-grade data pipelines using **Delta Live Tables + dbt** — medallion architecture, data quality expectations, and automated Databricks Workflows orchestration
- Designed and delivered a **custom AI Bot Space** on Databricks Apps, integrating Unity Catalog and custom models into a secure, governed enterprise AI tool
- Built **ML lifecycle platforms** with MLflow — experiment tracking, model registry, and REST-based Model Serving endpoints; resolved critical ML workload blockers for enterprise clients
- Optimised **platform costs via system tables** — DBU consumption tracking, cluster utilisation analysis, and autoscaling policy enforcement across teams

PROFESSIONAL EXPERIENCE (CONTINUED)

Principal Software Engineer

Oracle India Pvt. Ltd.

Aug 2021 – May 2022

- Onboarded Oracle Cloud Fusion (SaaS) enterprise customers — owning solution proposals, implementation, and coordination across internal stakeholders
- Defined cloud migration strategy from on-premises to **Oracle Cloud Infrastructure (OCI)** for SaaS and IaaS workloads; drove critical escalations to resolution

System Integration Specialist Advisor

NTT Data

May 2018 – Aug 2021

- Designed scalable, secure multi-cloud architectures across **Azure, AWS, and VMware**; led legacy-to-cloud-native modernisation projects
- Built IaC automation frameworks using **Terraform, Ansible, and Jenkins**; established cloud governance, security, and compliance standards

EARLIER CAREER

Senior Software Engineer — Oracle India Pvt. Ltd.	· Led Cloud Central team for SaaS Fusion post-provision assessments	Jul 2015 – May 2018
Cloud Engineer — Citrix R&D India	· End-to-end Citrix Cloud / XenServer, XenApp, XenDesktop, NetScaler deployments	Jun 2013 – Jul 2015
System Engineer — CSS Corp	· Global Red Hat / XEN / VMware server administration for Blackboard clients	Jun 2011 – Jun 2013
Software Engineer (Contract) — Wipro Technologies	· UNIX batch operations, HPSPM/HPOM automation, production support	Sep 2010 – Jun 2011

TECHNICAL SKILLS

Databricks & AI/ML

Databricks Lakehouse

Unity Catalog

Delta Live Tables

MLflow

Model Serving

LakeFlow

Genie AI/BI

AgentBrick

RAG / GenAI

Auto Loader

Structured Streaming

Databricks Apps

Asset Bundles

Delta Lake

dbt

PySpark

Cloud Platforms

Azure Databricks

ADLS Gen2

Azure Event Hubs

Azure Key Vault

Azure DevOps

ARM Templates

AWS Databricks

Amazon S3 / EC2

Amazon Bedrock

GCP Databricks

Google Cloud Storage

BigQuery

Terraform

DevOps & Programming

Python

SQL / Spark SQL

Docker

Kubernetes

CI/CD

Jenkins

Ansible

Bash

Grafana

ELK Stack

KEY PROJECTS

Petabyte-Scale Azure-to-GCP Lakehouse Migration

70+ TB zero-downtime migration for a global retail enterprise with full Unity Catalog governance — six-step automated Asset Migrator framework.

GenAI RAG AI Bot Space on Databricks Apps

Enterprise AI Bot Space using RAG, Unity Catalog-managed models, and MLflow — secure, governed GenAI at scale.

Delta Live Tables + dbt Enterprise Pipeline

Production medallion architecture pipelines with data quality expectations and automated Databricks Workflows orchestration.

Databricks Platform Cost Optimisation

System-tables observability framework tracking DBU consumption, cluster utilisation, and job cost attribution across enterprise teams.

Amazon Bedrock + Databricks Model Serving

End-to-end integration between Amazon Bedrock foundation models and Databricks Model Serving — demonstrated at Nasdaq AWS Community.

CERTIFICATIONS

Databricks

Data Engineering Associate · Platform Administrator · Generative AI Fundamentals · Lakehouse Fundamentals

Microsoft Azure

Solutions Architect Expert · DevOps Engineer Expert · Administrator Associate · Identity & Access Administrator

AWS

Solutions Architect Professional · Solutions Architect Associate · AWS Community Builder

Others

RHCE · VMware VCP-DCV · Citrix XenServer · Oracle VM 3.0 & OCI · ITIL V3

EDUCATION

Bachelor of Technology — Electronics & Communication Engineering

Pondicherry University

2004 – 2007 · Pondicherry, India

SPEAKING & COMMUNITY

- **Founder & Lead** — Databricks User Group India (India's largest; Bangalore, Hyderabad, Pune, Coimbatore, Kolkata, Chennai)
- **Creator** — #LearnWithAbi (Databricks, GenAI & data engineering content on LinkedIn, Medium, GitHub)
- Speaker — Databricks DATA+AI Summit Recap: *Databricks & Apache Iceberg*
- Speaker — 9th World ML Summit, Bengaluru: *"Unlocking MLOps Potential"*
- Speaker — ServerlessDays Bengaluru: *Databricks Serverless SQL*
- Speaker — TechXConf 2024, Asia's largest AI & cloud conference
- Session — Nasdaq AWS Community: *Amazon Bedrock + Databricks Model Serving*
- Workshops at PSG Tech Coimbatore, Adamas University Kolkata & MITS
- Nominated — Topmate Creator Awards 2024, Extraordinaire Category
